BOARD OF DIRECTORS

December 7, 2016

TYPE OF ITEM: **ACTION**

ITEM: B.1 **Public Hearing for Reformation of the Central Avenue Open Space Maintenance Zone No. 6 ("Zone #6")**

PRESENTED BY: **Gregory Orsini, General Manager**

TYPE OF ACTION: **Roll Call Vote**

Recommendation:

Staff recommends that the Board follow the below process related to the Reformation of the Central Avenue Open Space Zone #6.

1. Listen to Staff comments and recommendation to the Board.
Please note, due to the pending outcome of the vote, the Board will make a motion once the votes have been tallied.
2. Open Public Hearing and consider any additional public input.
3. Determine if anyone has a ballot to add or would like to remove their ballot. Board President will say, *"This is your last opportunity to add or remove a ballot for consideration."*
4. Instruct Staff to open and count the ballots. Board proceedings for this item may continue while the ballots are counted. Upon completion, Staff will present the results.
5. Close Public Hearing
6. Based on the ballot results the Board can take the following actions:
 - If 50% or more of the eligible returned weighted ballot votes indicate "YES" the Board can approve the reformation of Central Avenue Open Space Maintenance Zone #6 by Board Motion to *"adopt Resolution 2016-21 Confirming and Approving the Reformation of Central Avenue Open Space Maintenance Zone #6,"* **Attachment 1** followed by a roll call vote.
 - If 50% or more of the eligible returned weighted ballot votes vote "NO" the Board can take the following actions:

Direct Staff to review cost projections to restructure, redesign and reform the boundaries of the Zone #6 and request another vote by the participants.

Take no action. Resulting in Zone #6 expiring and the maintenance will revert back to the property owners along

Central Avenue. MCSD will no longer be responsible for the maintenance of Zone #6.

Discussion:

Zone #6 is located within the Humboldt County Central Avenue Right of Way which extends 50ft to the east and west of the Central Ave. center line. Central Ave. itself is 71ft across leaving 11 additional feet along the west side and 20 additional feet along the eastern side. This detail of the right of way is significant in the reassessment process this term. Zone #6 is within the right of way on both the east and west sides of Central Ave. The eastern side of Central Ave. contains a 5-foot-wide meandering bridal trail in addition to the sidewalk and landscape areas while the western side contains a sidewalk and landscape areas.

Zone #6 Engineers Report, **Attachment 2**, describes the open space, the process for assessment of the fees and cost related to maintenance and repair, the location of the engineer's report, the process for the protest hearing and voting process, the estimated cost of maintenance including bookkeeping and billing fees, and a list of maintenance activities.

Maintenance Activities:

- Weeding, hedging and tree pruning,
- Planting, mulching, and trail maintenance

Assessment

In previous years (1997- 2010), Zone #6 fees were assessed by calculating how many linear feet of each parcel fronted Central Avenue minus driveways and entry points. This method was applied to all parcels within Zone #6. This method was modified for the 2016 reassessment due to General and Special Benefit considerations.

As of 2016, the method for assessing fees was changed to an area based calculation to account for the difference in open space width along the eastern and western sides of Central Ave. The total assessable square footage of maintenance area was calculated by multiplying the total assessment frontage, by Zone #6 depth, minus driveways, entry points and sidewalks. Zone #6 depth for east Central Avenue is 20feet; the depth for western Central Avenue is 11feet.

The Central Ave. Open Space Zone #6 totals approximately 126,300 square feet of area for both east and west sides of Central Avenue. Of the total area 39,452 square feet are non-assessable sidewalks and driveways resulting in an assessable area of approximately 86,874 square feet. The Zone #6 is divided into approximately 71 assessor's parcels.

Reformation

Zone #6 was originally formed in 1997 and was established with a 5-year "sunset clause". This means every five years Zone #6 is re-assessed to assure the fees reflect all current maintenance and material costs to repair and maintain Zone #6.

Also included in the reformation is an inflation formula to allow for cost of living increases over time.

Proposition 218

In November 1996, California voters passed Proposition 218, the “Right to Vote on Taxes Act”. This constitutional amendment protects taxpayers by limiting the methods by which local governments can create or increase taxes, fees and charges without taxpayer consent. This Proposition 218 process requires **voter approval** prior to imposition or increase of general taxes, assessments, and certain user fees and is not a protest voting process.

Zone #6 History

McKinleyville Community Services District formed Zone #6 in June of 1997. Zone #6 extends from Anna Sparks Way at the Ray’s shopping center on the south end of Central Ave. to the intersection of Central Ave. and Bates Rd. to the North.

Zone #6 was established with a five-year “sunset clause” and, in accordance with Proposition 218, was reformed on July 1, 2000. An independent contractor was retained to perform landscape maintenance work along Zone #6 at a cost of \$1,020/month or \$0.15/Linear foot of frontage. No fees were increased and 8.5hrs/week of maintenance was performed.

In January 2005, Zone #6 was again reformed and with the addition of a new maintenance person, MCSD took over all maintenance. A fee increase of .19%, at a cost of \$1,350 per month and estimated 10hrs/week of maintenance.

In 2010, Zone #6 was again reformed, new assessment included banners and insurance cost increases. Zone #6 maintenance fees increased to \$2,202.01 per month.

In 2016, Zone #6 is again being reassessed. During this reassessment the method for assessing fees was revised to maintenance area opposed to linear frontage. Another consideration was maintaining Zone #6 pesticide free, per our Integrated Pest Management Plan and our negotiation with Humboldt County Public Works for contributed labor and \$10,000 per year in cost sharing. Will require MCSD to collect \$2,400 per month.

The Engineer’s Report was published and stamped by Max Schillinger and was made available on the MCSD website and at the business office. The Notice and Ballots, **Attachments 4 and 5** were mailed to all businesses or property owners in Zone #6 dependent on who receives the water bill. This is the Public Hearing for public input prior to the reformation of Zone #6. The votes will be tallied and the Board will have the option to consider reforming Zone #6 at this time.

RESOLUTION 2016 – 21

**A RESOLUTION OF
THE MCKINLEYVILLE COMMUNITY SERVICES DISTRICT
CONFIRMING AND APPROVING THE LEVY OF ASSESSMENTS IN CONNECTION WITH
THE CENTRAL AVENUE OPEN SPACE MAINTENANCE ZONE # 6**

Whereas, In connection with the District's Central Avenue Open Space Maintenance Zone # 6 (the "Zone"), the District funds the maintenance of landscaping improvements on the frontage on Central Avenue through the levy of an assessment (the "Assessment") that is collected on the District's water bill; and

Whereas, the District's practice has been to renew the Assessment every five years; and

Whereas, the District's existing authorization to levy the Assessment has sunsetted; and

Whereas, by its Resolution No 2016-16, the District Board initiated proceedings to renew the Assessment at a revised rate for an additional five years; preliminarily approved an Engineer's Report for the Assessment which is on file in the District's offices and available for public inspection (the "Engineer's Report"); and set December 7, 2016 at Azalea Hall, McKinleyville, CA as the time and place for a public hearing on the proposed assessment (the "Hearing"); and

Whereas, notice of the Hearing, along with a mail ballot; was mailed to the billing address, as shown on the District's records, of each person directly liable for payment of the Assessment; and

Whereas, at the appointed time and place, the District Board held the Hearing and accepted oral and written testimony from all persons wishing to provide such testimony; and

Whereas, the District Board has determined that the number of the number of ballots returned (and not withdrawn) in opposition to the assessment does not exceed the number of ballots returned (and not withdrawn) in support of the assessment (with all ballots weighted based on the proportionate financial obligation of the parcel for which the ballot has been cast); and

Whereas, the District Board desires to confirm and approve the Assessment.

NOW, THEREFORE BE IT RESOLVED that the Board

1. Finally approves the Engineer's Report and makes reference to the Engineer's Report for a complete description of the boundaries of the Zone, of the nature of the Improvements, and of the amount of the proposed assessment against parcels in the Zone;

2. Confirms and approves the Assessment, as described in the Engineer's Report through December 2021;
3. MCSD reserves the right to increase charges annually using the Department of Finance adjustments for the open space zone areas and trail system.

ADOPTED, SIGNED AND APPROVED at a duly called meeting of the Board of Directors of the McKinleyville Community Services District on December 7, 2016 by the following polled vote:

INTRODUCTION

The purpose of these documents is to outline the basis of assessments for the Central Avenue Open Space Maintenance Zone (MCSD Zone #6) in McKinleyville California. This maintenance zone provides for landscaping along portions of Central Avenue, and for the maintenance of Bridal Trail. The funding is billed by McKinleyville Community Services District (MCSD) as a surcharge on the monthly water bill that customers within the zone pay.

Such that the cost basis of the assessments is clearly outlined, the following documents include:

- **ENGINEERS REPORT - Summary.**
This report summarizes the basic costs of MCSD Zone#6,
- **EXHIBIT A – Maintenance Zone Maps**
These maps were created utilizing both 2014 orthoimagery, and Humboldt County Tax Assessment mapping. The “Assessable S.F.” on the maps is the estimated landscape square foot area assessed for the adjoining lot.
- **EXHIBIT B – Maintenance Zone Spreadsheet.**
This document outlines all of the calculations utilized in the assessment. The furthest right column on the spreadsheet titled “Net per Cust per Month” is the amount per month added to each customer’s water bill for maintenance.
- **Maintenance Zone Definitions and References.**
This document defines pertinent terminology and references used on the maps and spreadsheet. It is organized in the order of columns of the spreadsheet. The end of the documents provides a list references from past reports and calculations.

**ENGINEER'S REPORT
CENTRAL AVENUE OPEN SPACE MAINTENANCE ZONE #6**

This report outlines the proposed assessment in connection with Central Avenue Open Space Maintenance Zone #6. The site plan, which constitutes a map of the Zone and delineates the boundaries of the Zone, is attached hereto and incorporated herein by reference.

The facilities to be maintained include landscaping along Central Avenue (including bridal trail maintenance).

Exhibit A – SITE PLAN

The site plan shows the approximate locations of the landscaping to be maintained. All facilities are to be constructed to specifications of the County of Humboldt and the McKinleyville Community Services District

Exhibit B – COST ESTIMATE

The cost estimate, attached and incorporated herein by reference, details the current estimated costs and expenses for maintenance of the zone.

As shown on the exhibit, costs maintaining landscaped frontage are allocated to each parcel based on the area of the landscaped frontage that fronts the parcel. Each assessed parcel is allocated an equal share of the cost of bridal trail maintenance.

Total Annual Cost of Landscape Maintenance:	\$41,700
Plus 12% Insurance and Contract Fee:	\$ 5,004
Less Annual County Subsidy	(\$10,000)
Less Credit for Swap Crew	<u>(\$11,000)</u>
Total Costs Charged on Frontage	\$25,704

Bridal Trail Maintenance Cost	\$ 2,581
Administrative/Bookkeeping Cost	<u>\$ 564</u>
Total Costs Charged Per Parcel	\$ 3,145

Total Assessable Frontage (Sq. Feet):	86,874
Total Number of Assessed Parcels:	94

Gross Monthly Assessment per Frontage Sq. Foot:	\$0.04
---	--------

For additional information, See the Exhibit A and B.

The cost estimate is a determination of the cost of the special benefit to each parcel within the zone from the maintenance of the landscaping shown on the site plan. Landscape maintenance specially benefits the parcels fronting Central Avenue because the landscaping serves as an attractive “front yard” for the parcel.

There is no general benefit from the landscaping because each square foot of landscaping is associated with a specific parcel (or group of parcels) that is assessed for the maintenance costs.

The total assessment per lot per month is estimated in 2016 dollars. This monthly assessment (aside from the fifty cent administrative fee) may be adjusted annually, beginning February, 2017, to reflect the change in prices as set forth in the California Department of Finance’s “Price and Population” calculation. However in no event will the assessment per lot be increased higher than the upcoming year’s total expected cost of maintenance, insurance, administrative and inspection, and plant replacement divided by the number of parcels subject to the assessment.

The assessment will be collected on the water/sewer bill and administered pursuant to Regulation 73 of the District.

[Revised 9/29/16](#)

Column# Description

0. **Map Page:** This is the map page number that the parcel is shown on. The parcel may show up on more than one page.
1. **Assessed Frontage Length:** This equals the parcel frontage along Central Avenue minus driveways and entry points. Parcel Frontage was derived from Humboldt County Assessor maps. Driveway frontage was derived using aerial imagery and field verification.
2. **Side:** Describes which side of Central Avenue the parcel is on, either East or West side.
3. **Frontage Depth:** The land between the face of curb and the Central Avenue Right of way defines the borders of the maintenance zone. On the East side of Central Avenue the Right of Way extends 20 feet beyond the face of curb. On the West side of the Central Avenue Right of Way extends 11 feet beyond the face of curb.
4. **Total Frontage Area:** The Frontage Depth multiplied by the Assessed Frontage Length.
5. **Sidewalk Depth:** Sidewalks are 5ft wide.
6. **Sidewalk Area:** The Sidewalk Depth multiplied by the Assessed Frontage Length.
7. **Assessed Square Footage:** The Total Frontage Area less the Sidewalk Area, which is the landscape area to be paid by each parcel.
8. **Proposed Base Cost per Month:** Equals, Assessed Square Footage multiplied by the maintenance cost of \$.04/square foot per month.
9. **2% Overhead for Insurance:** The Proposed Base Cost listed in column 8 above is multiplied by 2% for insurance costs.
10. **10% Overhead Contract Fee:** The Proposed Base Cost listed in column 8 above is multiplied by 10% for Overhead and Contract Fees.
11. **\$.50 Cost for Bookkeeping:** A lump sum of \$.50 added to each account for bookkeeping cost.

- 12. Cost for Trail Re-Surfacing:** The cost of re-surfacing and maintaining the gravel Bridal Trail. Re-surfacing will occur every five years:

Bridal Trail Resurfacing Cost Estimates			
Trail Dist. (ft)	4000	Gravel @ \$41/yard	\$7,585
Trail Width (ft)	5	Labor= 96 hrs * \$45/hr	\$4,320
Trail Depth (ft)	0.25	Equipment	\$600
TOTAL AREA	5000ft ³	Roller Rental	\$400
TOTAL YARDS	185yards	TOTAL COST (5Yr)	\$12,905
		Cost/Year	\$2,581.00
		Cost/Month	\$215.08
		Number of Customers OSMZ	94
		Customer cost/Month	2.288

- 13. \$10,000 County Subsidy:** The County of Humboldt has agreed to subsidize MCSD \$10,000 annually for maintenance of the zone. Thus the monthly subsidy per customer equals: (column 16 individual Gross Cost Per Cust. Per Month) x [(\$10000/12)*(total gross cost/mo.)]
- 14. Credit for SWAP Crew:** MCSD receives workers from the Sheriffs Work Alternative Program (SWAP) this labor comes to the District at a discounted cost. The value of this benefit is estimated at \$11,000/year. Thus this monthly subsidy per customer equals: (column 16 individual Gross Cost Per Cust. Per Month) x [(\$11000/12)*(total gross cost/mo.)]
- 15. Total Credits:** The total amount credited back to the customer, equal to the sum of column 13 and 14 credits
- 16. Gross Cost per Cust. per Month:** The amount customers would pay per month without any credits or subsidies, equal the sum of columns 8 through 12.
- 17. Net Cost per Cust. per Month:** The amount customers pay per month, including all fees, subsidies and credits.

McKINLEYVILLE COMMUNITY SERVICES DISTRICT

NOTICE OF PUBLIC HEARING AND PROPOSED ASSESSMENT

CENTRAL AVENUE OPEN SPACE MAINTENANCE ZONE # 6

On October 5, 2016, by its Resolution No. 2016-16, the Board of Directors of the McKinleyville Community Services District (District) proposed to renew the assessment levied in connection with Central Avenue Open Space Maintenance Zone # 6 ("Zone #6"). The Assessment is collected on the water bills for parcels on the portion of Central Avenue that contain frontage landscaping maintained by the District. You are being provided this notice because the District's records show that you are the billing customer responsible for payment of the assessment.

The purpose of the Zone #6 assessment is to fund the maintenance of the 86,874 square feet of publicly maintained landscaping fronting Central Avenue, as well as resurfacing and maintaining the gravel bridal trail. The assessment was first levied in 1997. The District's practice has been to renew the assessments every five years. The most recent assessment expired in November, 2015. It is proposed to renew the assessment for the period beginning December, 2016 and ending December, 2021.

The District's anticipated annual cost of frontage landscape maintenance is \$28,848.33 (reduced from \$49,848.33 by a \$10,000 county subsidy and a \$11,000 "swap crew" credit). This cost will be assessed to each parcel in proportion to the square feet of frontage landscaping adjacent to the parcel. Annual costs for the bridal trail and administration of the assessment total \$2,518.00. These costs will be assessed with each parcel paying an equal share.

The proposed monthly assessment for each parcel is \$2.29 plus \$0.03053 per square foot of frontage landscaping. This monthly assessment (aside from fifty cents per month that is collected for assessment administration) may be adjusted annually to reflect the change in prices as set forth in the California Department of Finance's "Price and Population" calculation. However, in no event will the assessment rate exceed the anticipated cost of providing services.

Reference is made to the Engineer's Report for the proposed Zone (which is available on the District's website) for a more complete description of the facilities and landscaping to be maintained and operated, as well as a map of the Zone. Additional information about the Zone can be found at <http://mckinleyvillecsd.com/node/3417>.

Public Hearing

On **December 7, 2016 at 7:00 pm at Azalea Hall, 1620 Pickett Road, McKinleyville, CA** the Board of Directors of the CSD will hold a public hearing on the proposed assessment. At the hearing, the Board will consider oral and written testimony (and written objections and protests) regarding the proposed assessments. The enclosed assessment ballot may be returned to the District at the hearing, or may be mailed or hand delivered to the District prior to the hearing. The Board will not impose the assessment if, upon the conclusion of the hearing, ballots submitted in opposition to the assessment exceed the ballots submitted in favor of the assessment. In tabulating the ballots, the ballots will be weighted according to the proportional financial obligation of the affected property (i.e. the amount of the assessment).

If you have questions about this notice or the proposed assessment, please contact General Manager, Gregory Orsini at (707) 839-3251. Completed Assessment Ballots, as well as written comments and protests for the Board's consideration at the hearing, can be delivered to the District at its offices located at 1656 Sutter Rd, McKinleyville, California.

ITEM: E.1 **2016 California Water Environmental Association (CWEA) Awards Presentation**

PRESENTED BY: **James Henry, Operations Director**

TYPE OF ACTION: **None**

Recommendation:

Staff recommends that the Board listen to a presentation, air questions and take public comment.

Discussion:

Each year California Water Environmental Association (CWEA) presents awards at their annual banquet. Nomination forms are submitted by agencies recognizing their staff or facility for the award. A committee then reviews the nominations and chooses a worthy recipient for each category.

This year, the following members of staff received awards, Christopher Jones, Bill McBroome and Mike Freeman. Christopher Jones was honored with the Mechanical Technician of the Year Award due to his expertise in vehicle repairs and pump maintenance activities. Bill McBroome received Electrical/ Instrumentation Person of the Year Award due to his troubleshooting and repair experience along with the classes he teaches. Mike Freeman received Collection System Person of the Year Award due to his attention to detail while conducting inspections at our facilities and maintaining the Districts as-built.

Bill McBroom should be in the conversation for this award every year, and this year is no different. Bill does an outstanding job troubleshooting any electrical or control issues at our stations, and has progressed in the fields of telemetry and SCADA control. ~~He has been invaluable~~ His work has been invaluable during our current WWMF upgrade project, providing both the District and engineers with valuable insights into our operation and potential issues that he's discovered during the process. I was one of many that enjoyed his electrical troubleshooting class this year, and I always look forward to learning something new from him.

TYPE OF ITEM: **INFORMATIONAL**

ITEM: E.2 **Review Redwood Coast Energy Authority's (RCEA) Humboldt County Community Choice Energy Program**

PRESENTED BY: **Gregory Orsini, GM and Matthew Marshall, RCEA**

TYPE OF ACTION: **None**

Recommendation:

Staff recommends that the Board review information regarding Humboldt County Community Choice Energy Program, as presented by RCEA Executive Director, Matthew Marshall, discuss and take public comment.

Discussion:

RCEA's purpose is to develop and implement sustainable energy initiatives that reduce energy demand, increase energy efficiency, and advance the use of clean, efficient and renewable resources available in the region.

RCEA is currently working to establish a community choice energy program for Humboldt County. This program will bring more local renewable energy and lower energy prices to Humboldt County residents and businesses. Service is scheduled to begin in May 2017.

Since MCSD will be faced with the decision on who we purchase our electricity from early next year, Staff thought it would be beneficial for the Board to have an understanding of the program and an opportunity to discuss.

Community Choice Energy in Humboldt County

Frequently Asked Questions

What is CCE?

Community Choice Energy (CCE) programs allow city and county governments to pool (or aggregate) the electricity demands of their communities in order to purchase power with higher renewable content, lower greenhouse gas emissions and reinvest in local energy infrastructure. The electricity continues to be distributed and delivered over the existing electricity lines by the incumbent utility, which is Pacific Gas and Electric (PG&E) in Humboldt County.

What are the benefits of CCE?

The benefits of CCE fall into three general categories: consumer, environmental, and economic. CCEs benefit consumers by offering a choice of energy providers and stable, often lower, electricity rates. By procuring renewable energy and low carbon resources, CCE's have the potential to dramatically reduce the greenhouse gases attributed to the use of fossil fuels such as coal and natural gas. CCEs benefit the local economy by redirecting an existing revenue source (power generation costs) to invest in local energy resources, customer programs and infrastructure, and create new jobs.

Has this been done in other areas?

There are currently four operational CCEs in California: MCE Clean Energy (MCE) serving Marin, Napa and parts of Contra Costa Counties, Sonoma Clean Power (SCP) in Sonoma County, Lancaster Choice Energy (LCE) in Lancaster, and Clean Power SF in San Francisco. All of these programs are offering customers 20-80% more renewable energy at lower prices than PG&E. There are dozens of other California communities that are in the process of implementing local CCE programs.

How will CCE be managed in Humboldt County?

The Redwood Coast Energy Authority (RCEA) will administer Humboldt County's CCE program under the name 'Redwood Community Energy' (RCE). RCEA is a local government joint powers authority managed by a Board of Directors comprised of elected officials from the unincorporated county, cities, and the Humboldt Bay Municipal Water District. Decisions regarding electricity supply, rates and other matters will be decided during publicly noticed Board meetings.

Where will CCE be offered and what is the timeframe?

All municipalities within Humboldt County have the chance to participate in the CCE either now or in the future, but currently only the County of Humboldt and the Cities of Arcata, Eureka, Fortuna, and Trinidad have passed the required ordinance authorizing CCE for their constituents. The elected bodies in the cities of Blue Lake, Ferndale, and Rio Dell are in the process of evaluating whether to authorize CCE for their constituents. RCE is scheduled to launch in May 2017. Enrollment notices will be sent beginning in February.

How are CCEs funded?

All CCEs, once operational, are completely funded by ratepayer revenues—not taxpayer dollars. Start-up funding and the credit required for initial energy contracts is being provided by the vendors selected to support program implementation and early operations.

REDWOOD COAST

Community Choice Energy in Humboldt – Frequently Asked Questions

Why are so many local governments considering CCE formation?

CCEs offer local control, providing customers and municipalities a choice regarding their electricity: how much is procured from renewable resources, who administers and oversees the program, and how excess revenues are spent. Existing CCEs have also succeeded in significantly reducing greenhouse gas emissions which directly responds to local Climate Action Plans and environmental goals. And because CCEs are locally controlled, energy programs can be developed to suit the specific goals of their communities, typically through innovative energy efficiency programs, the integration of clean technology and local power generation. These types of programs can infuse profits back into the communities they serve and may also stimulate job growth.

Will RCE replace PG&E?

No. CCEs work in partnership with the local utility. While RCE will assume responsibility for procuring and developing power (called electric generation) on behalf of participating customers, PG&E continues to deliver your electricity, maintain the power lines and electrical grid, and handle customer billing.

Will PG&E still do repairs for CCE customers?

Yes, PG&E will continue to perform all power line maintenance and repairs for its utility customers, whether or not they're also CCE customers. If the power goes out, you will still contact PG&E.

Will my rates go up when I'm switched over to RCE?

One of the primary goals of RCE is to procure renewable electricity from local sources at competitive or lower rates than has otherwise been available through PG&E. To date, the operational CCEs in California have succeeded in saving ratepayers millions of dollars while significantly increasing the levels of renewable and carbon free power that their customers consume. RCE's goals are similar.

Will my service be interrupted?

There will be no interruption in service. In fact, you won't even notice the difference when your account is enrolled because you will still receive and pay your bills through PG&E.

Is a Smart Meter required to get renewable energy through the CCE?

Smart Meters are not required in order for you to get electricity from a CCE. Having, or *not* having a Smart Meter is not a factor in any way.

How much clean energy will I be getting when I become a CCE customer?

While each community customizes its program to best serve the goals of its customers, each of the operational CCEs has offered a "default" electricity product ranging from 35% -56% renewable and 65%-80% carbon free, as well as an option for a 100% renewable/zero carbon electricity offered at a slight premium. By comparison, PG&E currently offers a 30% renewable/53% carbon free electric portfolio. Customers can either "opt up" to the 100% renewable product, or "opt out" of the program entirely, if they so choose. Decisions about how much of the energy portfolio will come from renewable or carbon free sources will be made by the RCEA Board of Directors. Check our website for updates on RCE and its product offerings.

Are there any new fees or hidden costs for CCE customers?

There are no hidden costs and no duplicate charges for CCE customers. When the program commences, the electric generation fee currently charged by PG&E will appear on your bill as an electric generation charge from RCE. There is also an exit fee levied on each customer by PG&E called the "Power Charge Indifference Adjustment" or PCIA. This fee pays PG&E for the stranded costs associated with the power it purchased on your behalf and is no longer needed. Although the PCIA is a

separate charge on the customer bill, it will be factored into RCE's rates so that the overall electrical generation charges are below PG&E's generation charges.

In December 2015, the California Public Utilities Commission (CPUC) approved PG&E's request to increase the PCIA which took effect in January 2016. The CCE community is contesting this fee, with a goal of reforming its application and reducing its effects on CCE customer bills in the future.

How will RCE procure its electricity?

In May 2016, the RCEA Board selected The Energy Authority (TEA), a non-profit organization, to represent its interests in the wholesale power market. TEA, on RCEA's behalf, will negotiate long- and short-term power contracts with energy producers, some of which will be local, based on the specific power supply goals developed by the RCEA Board. These contracts are negotiated with the goal of procuring energy that meets the requirements of cost, levels of carbon-free and renewable, use of local resources, reliability, and other factors as defined by the RCEA board and based on input from the community.

Do the renewable electrons procured by the CCE actually come into my home or business?

All the electrons purchased on your behalf are fed into California's electricity grid, thus "greening the grid." Electrons cannot be isolated and sent to specific customers. Your choice to participate in RCE increases the amount of renewable power placed on California's grid which has the effect of reducing greenhouse gas emissions and stimulating new renewable development in our region and State.

What is an "opt out" program, and why is a CCE managed as one?

California legislation stipulates that CCE providers (such as RCEA) shall become the default electricity supplier in their areas and that they shall operate as opt out programs—automatically enrolling all customers within their jurisdictions while affording a choice to leave the program, if desired.

How does the opt-out process work?

When a CCE is launched, all customers within its jurisdiction are sent a minimum of four notices over a period of five months to inform them that their electricity default provider is changing. Anyone can opt out of the program at no charge, via phone, website or letter, at any time.

If I have solar panels on my roof, will I still be able to sell excess electricity back into the grid?

Yes—RCE plans to offer Net Energy Metering (NEM) to all solar customers, just as PG&E has. Existing CCEs have thus far succeeded in developing premium Net Energy Metering programs that increase the amount paid for excess energy generation, along with the ability to "roll over" energy credits from one year to the next, rather than allowing them to expire. Existing solar customers won't have to do anything once RCE begins serving customers; you'll be automatically enrolled in the new NEM program if you're currently in PG&E's NEM program.

What is the service territory for RCE?

Each of the cities that voted to join RCE, along with the unincorporated areas of Humboldt County, will comprise our CCE service territory. If your home or business falls into one of these areas, you'll be automatically enrolled in May 2017. Commercial accounts currently served under Direct Access (such as some large chain grocery stores) will not be enrolled unless they so choose.

Community Choice Energy in Humboldt – Frequently Asked Questions

How do I know RCE won't raise its rates?

One of the primary goals of a CCE is providing rate stability, with higher levels of renewable power. Thus far, existing CCEs have succeeded in increasing the amount of renewable energy delivered to their communities, while saving their customers money each month. The Redwood Community Energy Board of Directors will set its rates annually with the goal of offering rates below PG&E's generation rates. Rate setting will occur at an RCEA Board meeting which are always open to the public; your input will be welcome.

Will my PG&E discounts still apply?

Yes. The various discount programs offered through PG&E will still apply when you become a CCE customer: CARE, FERA and Medical Baseline programs will not be affected by the addition of Redwood Community Energy.

Will I get a separate bill?

No, you'll still get just one bill from PG&E, which includes electricity procurement from RCE and PG&E's customary delivery, transmission, maintenance and other utility charges. All fees and line items are clearly stated on the bill and there are never any duplicate charges.

Where can I learn more?

BOARD OF DIRECTORS

December 7, 2016

TYPE OF ITEM: **ACTION**

ITEM: E.3 **Consider Approval of Memorandum of Understanding (MOU) for Emergency Alternate Facility Space Between the McKinleyville Community Services District (MCSD) and the City of Blue Lake**

PRESENTED BY: **Gregory Orsini, General Manager**

TYPE OF ACTION: **Roll Call Vote**

Recommendation:

Staff recommends that the Board review information provided, discuss, take public comment and authorize General Manager to execute the MOU between MCSD and the City of Blue Lake for emergency alternate facility space.

Discussion:

The City of Blue Lake contacted MCSD regarding their continuity plan and to discuss the use of MCSD as an alternate facility, if there was a need to temporarily relocate due to an emergency.

The City of Blue Lake is looking to establish an alternate facility to in order to resume work under both minor and extreme emergencies. Two examples have been provided and detail what would be expected from MCSD in each scenario.

Most common, simplest scenario (ex: City Hall out of commission due to rat infestation. Other continuity facilities within Blue Lake unavailable):

- Space for up to 4 staff
- Use of phones, computers, copiers, printers
- Use of basic facility for up to 30 days if needed.
- Use of facility within 24 hours of possible need

Worst Case Scenario (ex: mass flooding in the City of Blue Lake, City Hall and other continuity facilities are under 3-4 feet of water for unknown timeframe):

- Space for up to 8 staff members
- Use of phones, computers, copiers, printers
- Possible temporary set up of City of Blue Lake computer network by Blue Lake IT (not to be connected to MCSD network)
- Use of facility within 24 hours of possible need
- Use of facility for up to 30 days if needed, and possibility of longer if agreed upon by both parties
- Possible temporary access by Blue Lake Citizens for basic City needs

The MOU would not be binding but is structured to provide a reciprocal benefit to MCSD.

If the spirit of the MOU changes significantly or the GM has any concerns about the commitment from MCSD he will return to the Board for further instruction.

Memorandum of Understanding Between McKinleyville Community Services District and City of Blue Lake

Memorandum of Understanding for Emergency Alternate Facility Space between the
McKinleyville Community Services District and the City of Blue Lake
(Date) _____

I. Purpose

This agreement between the McKinleyville Community Services District and the City of Blue Lake provides a framework for cooperation between the parties in the event an emergency or disaster results in the inability to access city facilities. Pursuant to this agreement, each organization will assist the other with space, furnishings, telecommunications, information technology, security, and administrative support for the Emergency Response Team (e.g., advance team and those that perform essential functions).

II. Definitions

Host: McKinleyville Community Services District

Guest: City of Blue Lake

III. Scope of Agreement

- A. This agreement provides, but is not limited to, the identified assistance in cases where the host is not affected by the emergency that precipitates the activation of this agreement.
- B. The time period of time the host support is expected to last is less than thirty (30) business days during which time the guest will seek to acquire other more permanent facilities, or return to their original facility, or negotiate an extended support arrangement with the host.

IV. Procedures

A. Availability of Space and Support

1. The parties agree to work cooperatively to identify space, telecommunications, information technology services and equipment, security, and other services necessary to support the temporary relocation of the Emergency Response Team to perform essential functions. Space and other support requirements will be documented in an attachment to this agreement and will be reviewed and updated annually. The attachments may be modified at any time during the activation of the agreement and upon the mutual agreement of the parties.

2. The General Manager or designee of the host will immediately notify the City Manager or designee of the guest of any situation that may reduce the guest's ability or capabilities to support the Continuity of Operations Planning (COOP) plan activation of the guest.

B. Activation of Space/Support

1. The City Manager or designee of the guest will promptly notify the General Manager or designee of the McKinleyville Community Services District that the COOP plan was activated and alternate facilities are required.
2. During the period of COOP plan activation, the host will provide support to the guest based on the requirements outlined in the attachment. However, modifications to those requirements are to be expected based on the particular circumstances of the incident or event.

C. Reimbursement of Costs

1. No exchange of funds in advance of activation of support requirements will take place.
2. The guest is responsible for reimbursing the host for reasonable costs associated with actual COOP operations. Such costs are to be limited to extraordinary expenses of the host organization, such as supplies, equipment, personnel costs above normal salaries and benefits, security, and utilities. The host is to provide

V. Terms

- A. This agreement will be effective on the date of the last signature thereto and will continue until rescinded, upon 30 days written notice, by either party.
- B. The attachments outlining specific space, telecommunications, information management, and other administrative support is to be reviewed and renewed annually on the anniversary date of the agreement by the parties. The City Manager of the City of Blue Lake and the General Manager for the McKinleyville Community Services District shall be responsible for the annual review.

TYPE OF ITEM: **INFORMATIONAL**

ITEM: E.4 **Review Summary of Information from the Gratitude Gathering and Community Visioning Event co-hosted by MCSD Parks & Recreation Dept. and the McKinleyville Family Resource Center on November 19, 2016**

PRESENTED BY: **Lesley Frisbee, Recreation Director**

TYPE OF ACTION: **None**

Recommendation:

Staff recommends that the Board review the information provided summarizing the recent Gratitude Gathering and Community Visioning event held at the Teen & Community Center in collaboration with the McKinleyville Family Resource Center, discuss and take public comment.

Discussion:

On Saturday, November 19, 2016 the McKinleyville Family Resource Center and the MCSD Parks & Recreation Department co-hosted a public Gratitude Gathering and Community Visioning session at the McKinleyville Teen & Community Center. Representatives from several local service organizations including, the Arcata Fire Dept., Humboldt County Sheriff's office, McKinleyville Community Health Centers, Humboldt County Dept. of Public Health, Mad River Rotary Club, the Red Cross, the Kunle Center, the McKinleyville Lions Club, Girls Scouts and the Boys & Girls Club of the Redwoods were there providing a wealth of information regarding the services provided in our community.

The event was attended by approximately 40 community members ranging in age from 6-80. Participants were asked to answer two questions during the event and encouraged to connect to others through asking simple curiosity questions provided on cards as participants entered. The questions and the responses can be reviewed in **Attachment 1**.

This event proved to be a great opportunity for the Parks & Recreation Dept. not only make connections to other service providers in the community and learn what the community appreciates about what is currently provided and available in McKinleyville but to also learn what residents want to see provided in the future. It was also a great chance showcase the new Teen & Community Center. Staff answered several questions about the facility and its availability for public use.

This was a very positive event and a great way to gather information from the community as well as create connections and build relationships with other service providers.

What are your hopes for McKinleyville?

- Clean up camps and parks
- Lots more community events
- Please invest in an electric sign so you can regularly announce activity center/teen center events.
I often drive by, see all the cars and wonder what I am missing
- More places for community events
 - Parks
 - Educational trails
 - Gardens
- Designing community spaces and buildings with local native culture and our history in mind
- More parking behind Safeway and make the front our square
- Grocery Outlet
- Community Forest
- Town Center
- Horses have the right of way
- Incorporation
- More opportunity for community members to talk across differences to increase understanding and collaboration
- Create community identity reflective of all perspectives
 - Community workgroups?
- Build side walk with guard rail on east side of Central by airport (parallels to Dows Prairie Rd)
- Help the people with bicycles-GMOB
- Pub-style restaurant
- New Pool
- People, don't litter
- Connect to bus stops and the teen center sidewalks
- River front trail from Hammond Bridge to 101 Bridge
- More public transit service just McKinleyville
- More murals, public art, galleries
- History/culture center for Native American History, railroad history, Ag history
- Clamming
- Improve Salmonid Habitat of Mill Creek, Widow White Creek
- Need a Town Center or Public Plaza
- There are Open Road Side Ditches along Murray and Central. These Ditches are infested with Non Native plants such as blackberry. Id' like to see these ditched recontoured for a more natural appearance with native vegetation
- More night life
- Outreach to neighborhoods to find out what their answers are to these questions (the people that can't or don't show up to these events)

- New Mad River Bridge
- Please put a sidewalk in front of Jacobson Engineering so kids and wheelchair users don't have to go into the street between the bus stop and the teen Center

ITEM: E.5 **Consider Authorization for Director Mayo to Attend the Association of California Water Agencies (ACWA) 2017 DC Conference in Washington D.C. February 28th – March 2nd, 2017**

PRESENTED BY: **Emily Abfalter, Board Secretary**

TYPE OF ACTION: **Roll Call Vote**

Recommendation:

Staff recommends that the Board review the information provided for the ACWA DC 2017 Conference, February 28 – March 2, 2017 in Washington D.C.; take public comment and consider authorization for Director Mayo to attend and for the District to pay his conference registration fees and one night stay at the Hyatt Place Washington D.C.

Discussion:

The ACWA 2017 Washington D.C. Conference is set for February 28 – March 2, 2017 at the St. Regis Hotel in Washington D.C. Attendees will learn firsthand the priorities of Congress and the new administration; get the latest on the budget and funding for programs of interest; meet and join fellow Water Agencies to show the importance of California water issues and better develop federal legislative and regulatory strategies.

ITEM: E.6 **Review and Amend Resolution 2016-18 to Pledge Revenues and Funds Related to the Clean Water State Revolving Fund Energy Projects**

PRESENTED BY: **Gregory Orsini, General Manager**

TYPE OF ACTION: **Roll Call**

Recommendation:

Staff recommends that the Board review all pertinent information, allow public comment and amend Resolution 2016-18 to Pledge Revenues and Funds Related to the Clean Water State Revolving Fund Energy Projects.

Discussion:

Resolution 2016-18 was approved at the November 2, 2016 Board of Director's meeting as a formality required to demonstrate to the State Water Board that MCSD will pledge revenue and funds collected from the sewer enterprise fund to repay the financing of the project by the Clean Water State Revolving Fund.

The State Water Resources Control Board, on behalf of the Clean Water State Revolving Fund, has requested a revision to the wording of Resolution 2016-18. **Attachment 1** shows the word "Reserves" which is to be removed from the original approved Resolution. **Attachment 2** is the amended version, hereby known as Resolution 2016-18A.

Adopting this amended version of the Resolutions is necessary prior to finalization of the funding agreement for the Project.

FINANCIAL, AUDIT, & BUDGET INFORMATION

The District has deposited \$741,653.25 to date into the Trust Account for reserves recovery as of October 31, 2016. This represents 68.1% of the \$1,087,684.00 total reserve that need to be recovered.

The District has \$262,248.09 to date in the Trust Account for the next Biosolids Disposal project.

Audit Update: Draft Financial Statements have been completed. Our auditor, Jeff Trump of Hunter, Hunter, & Hunt, is reviewing those statements for accuracy and consistency with the trial balance already tested.

Treasurer's Report Highlights: Water Fund capacity fees collected during October total \$40,056.00 (p.4) Wastewater Fund capacity fees total \$72,749.00. Neither Capital Contributions nor Capacity fees will be included in the income vs. expenses graphs of the Treasurer's Report.

The Balance Sheet shows the assets and liabilities for each major Fund. Assets are listed first, in the order of liquidity. Subtotal lines are provided for the major categories of assets: cash and cash equivalents, accounts receivable, and prepaid expenses. Capital asset totals are listed last. Liabilities are shown in the next section. Current liabilities consist of Accounts Payable and Payroll Payables. Long-term debt and other non-current liabilities are listed for the Water and Wastewater Funds.

Of note is the fact that the governmental funds do not show either non-current assets or non-current liabilities. Generally Accepted Accounting Principles and the Government Accounting Standards Board both require a modified accrual basis of accounting for governmental funds. That means current financial resources are set against current financial requirements, and long-term assets or debt are listed separately. In this case, a net total value for General Capital Assets is shown at the bottom of the Balance Sheet report. General Long-term Liabilities are also shown there.

OTHER UPDATES

The sixth disbursement request to the State Revolving Fund loan for construction costs related to the new Wastewater Management Facility has been generated and sent for review before forwarding to the State Revolving Fund. The fifth disbursement request was received in October. On the Debt page of the Treasurer's Report, the loan principal amounts will be accumulated until the SRF provides a final loan amount after construction is finished in FY2017-18.

Water Department:

Water Statistics:

The district pumped 36.6 million gallons of water in October.
Two water quality complaints were investigated and rectified.
Daily, weekly and monthly inspections of all water facilities were conducted.
One new water service was installed.

Double Check Valve Testing:

Annual routine testing was conducted in Route 17 and 18 along with a minimal number of retests. Customers with failed DCV's were notified to make repairs and call the office to schedule a retest.

Average and Maximum Water Usage:

The maximum water usage day was 1.6 million gallons and the average usage per day was 1.2 million gallons.

Water Distribution Maintenance:

Weekly Bacteria Samples were collected on Schedules 1, 3, 4, 5 and 6 which represent different locations in the water system. The schedules are made up of a sample taken in each pressure zone. Two services were relocated to make it more accessible for reading. An angle-stop was replaced on Holly due to leak found during the meter replacement. Permanent paving was completed on several water leak trenches. When a leak is repaired, it is covered with cold mix until there are enough trenches on the list to make it cost effective for permanent paving. Valves were exercised as part of the Valve Exercise Program. A report is filled out for each valve when completed. Any issues found in the field are flagged for repairs.

Water Station Maintenance:

The Cochran Road 1.5 Million Gallon Tank Painting Project is in process. The interior is being sandblasted from the ceiling down. At this point, the ceiling is painted and the contractor is in the process of painting the shell. A painting inspector is on site to verify their work is adequate. Station cleaning and pump painting was completed at the Cochran Tank site.

As of July 2014, the District is required to submit a Public Water Monthly Monitoring Report to compare water usage to last year's usage in the same month. I will keep the Board updated each month using the Table below.

*Recycled water is reclaimed water that is used for irrigating crops.

New Construction Inspections:

Central Estates Phase 2D; All water main and services have been installed. All sewer mains and laterals have been installed. Testing will take place after PG&E have completed their underground work. McKinleyville BMW Expansion; A 4" fire service was tapped and installed. Five existing sewer laterals were capped back at the property line and inspected with the push camera. DCV and sampling still remains on the check list.

Fire Department Remodel; 4" Hot tap was installed for the fire service. The flushing and testing will occur when they are ready. Grocery Outlet; A pressure sewer tank and lateral were installed for the remaining house. Existing lateral was capped and will be abandoned when the weather permits.

Sewer Department:

Waste Water Statistics:

26 million gallons of wastewater were collected and pumped to the W.W.M.F. 28.2 million gallons of wastewater were treated and discharged to land disposal or reclamation in October.

Daily, weekly and monthly inspections of all sewer facilities were conducted.

Sewer Station Maintenance:

The following work was completed at the B Street and Fischer sewer lift stations; Wet wells were cleaned as part of the quarterly program to prevent grease and rags from plugging up the pumps and to reduce hydrogen sulfide build-up. The grit pits were sucked out with the Vac-con along with wiping down the hand rails and lights fixtures. The air relief valves were removed from pump 1 and 2 at the Kelly Station due to not functioning properly. They were cleaned, serviced and put back into operation.

Sewer Collection System:

Grease traps were inspected at required facilities. Customers that are out of compliance were notified to have their traps pumped and possibly shorten their pumping schedule. The camera unit was used to drive up the Henry Lane sewer main to look at the amount of grease accumulating from customers connected to the main.

Wastewater Management Facility:

The Chlorine Contact Basin was drained and cleaned with fire hoses. The air relief was removed, repaired and put back into service. The Pond 4 structure was pumped out due to rain water accumulation in the vault pit.

Daily Irrigation and Observation of Reclamation Sites:

Weekly well monitoring was conducted along with the Fischer Ranch tree farm as part of the tree farm pilot study. The trees are being irrigated weekly using reclaimed wastewater. An irrigation plan is still pending. Wells will be used to monitor the uptake of each tree species. The irrigation pipe was picked up and stored for the winter.

Street Light Department:

No streetlight complaints were reported in October.

Promote Staff Training and Advancement:

Weekly tailgate meetings and training associated with job requirements. Staff attended confined space training. Mia completed sexual harassment and defensive driving.

Special Notes:

Semi-annual oil changes are being conducted on const. equipment and generators
Tractors, Dump Truck and Vac-con were greased and lubed to prevent wear.

Monthly river samples were completed.

Monthly Self Monitoring Reports (DMR/SMR) were submitted.

Quarterly Self Monitoring Reports (DMR/SMR) were submitted.

Public Water Monthly Monitoring report was submitted.

Monthly Water Quality report was sent to the Dept. of Health.

Monthly Pesticide applicator report was submitted to Department of Agriculture.

Annual inspection of generator connections was completed.

IPM group held a couple meetings to work on the Matrix.

A new led light fixture was installed in the Corp yard to replace a faulty fixture.

Staff is working on design for the new camera trailer which will be done in house.

A new Vac-con demo truck was brought in to show new technology.

WWMF upgrade status:

The Clarifiers have been water tested and backfilled around the exterior walls. The maintenance building, Vac-con dump area and headworks are under construction.

Contractors have been installing a majority of the underground piping. The contractors have been dealing with wet weather and trying to keep the site manageable. The time lapse camera footage is still being collected and will continue through the construction phase. Weekly meetings have been held to discuss progress and scheduling.

Parks:

Several open space zones received mowing, hedging and maintenance as part of the Open Space Maintenance Zone agreements. The Facilities were mowed and cleaned as part of the weekly schedule along with rental events. Staff completed the Teen Center landscaping and irrigation system. Top soil will be added along with planting grass seed. A few benches that are located in open space zones were painted due to graffiti.

GIS:

I would like to take this time to announce that we have hired Mia Wapner for the GIS position. She will be present at the Board meeting for introductions. She has been in training and getting familiar with the process at MCSD.

Management Plans:

Began research for the development of the Respiratory Protection Plan

Maps Completed:

Map of MCSD boundaries

Map for parcel and utility locations

Brian Anspach was contracted to come in and meet with Mia to go over document filing, plans and procedures.

Mia has been training on running service orders, vehicle inspections and a tour of the facilities.

TOTAL:	\$71,631	

Boys & Girls Club of the Redwoods began programming on August 22, 2016. As of the writing of this report BGCR membership at the McKinleyville Teen Center had reached 160 members. Staff has established a monthly meeting schedule with Boys & Girls Club program staff to discuss programming information and shared facility use.

The Cornerstone committee has met twice this last month and are working on the plan for a fundraising event to take place in March of 2017. Staff have also met with the Executive Director of the BGCR and business consultant Thomas Fumarelli to review the budget and current financial records in preparation for the next grant request from SH Cowell.

The kitchen installation is 95% complete. The hood and fire suppression system is the last thing to be installed and that will be done in December. The fabrication of the hood system took longer than anticipated.

RECREATION ADVISORY COMMITTEE:

The Recreation Advisory Committee met on Thursday, November 17, 2016. The notes from the meeting are attached as **Attachment 1**.

RECREATION PROGRAM UPDATES:

- *Kids' Club After School Program*-Continues to run smoothly and at 95% capacity. Staff recently learned that the school district is applying for a 21st Century Learning Center grant, which if received will impact the way the program is managed and provided in the 2017-2018 school year. It is unclear at this time, what that impact could be, but MUSD will continue to want Parks & Recreation to provide after school programming and staff will work closely with MUSD to ensure both organizations needs can be met.
- *KinderSports-Soccer* session has come to an end. Due to a variety of factors, staff is not inclined to renew the leisure services contract with the Kinder Sports Independent Contractor. Staff is currently working to develop a new toddler sport program that will be coordinated and run by Park & Rec staff as opposed to an independent contractor.
- *Playgroup*-Continues to meet 3 days per week serving 15-30 families per day. We are currently hiring leaders for this program.
- *Jiu Jitsu*-November 17th was the last day for the current Jiu Jitsu session. It will resume in January 2017.
- *Youth Basketball League*-Registration for the 2017 YBB league continues to be accepted. The Deadline is December 3, 2016. Staff is soliciting team sponsors, volunteer coaches and hiring league staff.
- *Drop in Pickleball*-Wednesday mornings and Friday evenings drop-in Pickleball continues to have 10-15 participants per day. On November 19, 2016 two HSU Recreation Administration students successfully implemented a small Pickleball tournament at the Activity Center as their Senior Seminar project. This event was completely volunteer run and raised \$210 for the department.
- *Drop in Basketball*-Continues to have attendance of 25-30 people every Sunday evening.
- *Jr. High School Dance*-the most recent dance was held on Friday, November 18, 2016. This dance was the first dance for which tickets were sold in advance only. No ticket sales at the door. Attendance was 380 students. Pre-sale only tickets improved the experience for participants and staff. All students were in the doors and dancing within 35 minutes of the doors opening. Previous dances took over an hour to get all the students inside. Staff appreciates the new system and are happy to be providing a safer and better experience for everyone.

OTHER UPDATES:

- Staff is working on a DRAFT Community Survey Questionnaire for the 2017 Parks & Recreation Master Plan Update, and is outlining an implementation plan for conducting the survey as well as hosting a variety of focus group meetings to gather further information for the update. The current draft can be reviewed in **Attachment 2**.
- Staff has continued to fine tune details on the new website.
- Staff has been updating the McKinleyville Parks & Recreation data in the National Park & Recreation Parks Metrics community assessment tool. This tool

allows communities to compare services, amenities and related costs and revenues to other communities within the state and/or across the country.

Recreation Advisory Committee Meeting

NOTES

Members Present: John Kulstad, Bill Prescott, George Wheeler, Charlie Caldwell, Mary Burke, Addison O'Hanen, Jeff Dunk, Johnny Calkins, Kevin Collins

Members Absent: Chad Sefcik, Greg Moss, David Coelho

Meeting Notes:

Communications:

- Lesley Frisbee took the opportunity to let everyone present know that if anyone had any questions concerning the Dept. Health and Human Services and McKinleyville Family Resource Center project in McKinleyville, she was available to answer them.
- Mary Burke provided information regarding the Humboldt County Hammond Trail Bridge project.

Strategic Plan Review:

- Member J. Dunk commented that sections 4.3 and 4.4 of the Strategic Plan should define a stage for "planning" for development of properties.
- Member J. Kulstad suggested that development of a skate park should be in the strategic plan
- Director G. Wheeler stated that he also thinks that development of a skate park should be in the strategic plan and urged the RAC to seriously consider making such a recommendation to the Board of Directors
- Member C. Caldwell asked that the RAC consider his presentation on the Humboldt Skate Park Collective later on the agenda before pushing the board to add skate park development to the strategic plan
- As the Strategic Plan was agendized as an information item, staff suggested if the RAC wishes to make such a recommendation the item could be added to the December agenda as an action item.

Draft Community Survey for the Parks & Recreation Master Plan Update:

- There was a detailed discussion and useful feedback on the DRAFT Community Survey questions. Staff will edit the DRAFT based on suggestions and feedback and bring a second DRAFT to the RAC again in December.

Humboldt Skate Park Collaborative Right of Entry Request:

- Member C. Caldwell gave a summary of his presentation of intent to request a Right of Entry Agreement at the November 2, 2016 MCSD Board of Director meeting.
- C. Caldwell shared images of the existing design and briefed the RAC on the current capacity of the HSPC for committing to fundraising for such a large project.
- He stressed to the RAC that a project of this size and scope will require and rely heavily on community support and buy in and he is not sure he has that at this point. Before the HSPC moves forward with a Right of Entry Request, he wants to do some community outreach and find out what kind of park the community can and will feasibly support.

- He intends to work with Parks & Rec staff in order to find out what the community really wants before moving forward with the Right of Entry request.

Recreation Program Updates:

- Staff prepared the following on Recreation Programs, but due to time did not report this information to the RAC during the meeting:
 - *Kids' Club After School Program*-Continues to run smoothly and at 95% capacity. Staff recently learned that the school district is applying for a 21st Century Learning Center grant, which if received will impact the way the program is managed and provided in the 2017-2018 school year. It is unclear at this time, what that impact could be, but MUSD will continue to want Parks & Recreation to provide after school programming and staff will work closely with MUSD to ensure both organizations needs can be met.
 - *KinderSports*-Soccer session has come to an end. Due to a variety of factors, staff is not inclined to renew the leisure services contract with the Kinder Sports Independent Contractor. Staff is currently working to develop a new toddler sport program that will be coordinated and run by Park & Rec staff as opposed to an independent contractor.
 - *Playgroup*-Continues to meet 3 days per week serving 15-30 families per day. We are currently hiring leaders for this program.
 - *Jiu Jitsu*-Today is the last day for the current Jiu Jitsu session. It will resume in January 2017.
 - *Youth Basketball League*-Registration for the 2017 YBB league continues to be accepted. The Deadline is December 3, 2016. Staff is soliciting team sponsors, volunteer coaches and hiring league staff.
 - *Drop in Pickleball*-Wednesday mornings and Friday evenings drop-in pickleball continues to have 10-15 participants per day.
 - *Drop in Basketball*-Continues to have attendance of 25-30 people every Sunday evening.
 - *Party Program*-The Board of Directors recently approved a fee increase to the party program, and we have added a new option to our party program, Teen Center parties. Customers can now purchase a two-hour party for up to 20 participants to be held at the teen center where they can play pool, ping-pong, foos ball and Xbox games.

Ad Hoc Committee Reports:

TYPE OF ITEM: **INFORMATION**

ITEM: F.2.D General Manager's Report for December 2016 Meeting

PRESENTED BY: Gregory Orsini, General Manager

TYPE OF ACTION: Information Only

A summary of activity for the month of November 2016

Cost Savings Related to District Activities – The following is a review of some of the recent cost savings opportunities District staff identified for the previous month:

• Accountant Discount	\$1,365
• Office Supply Discount	\$67
• Sales Shopping for Program and Concession Supplies	\$133
• Irrigation Pipe Wagon Repairs in house	\$720
• In house automotive painting	\$200
• Miscellaneous electrical repairs	\$160
• SWAP	\$6,490
• Northern Humboldt Employment Services	\$2,340
Total cost savings for November are \$11,475	

The cumulative cost savings to the District to date from July 1, 2016 is \$91,140

District staff are recognized and commended for their continued efforts in looking for cost savings, the use of internal labor and grant opportunities that result in real savings for the District, rate payers, and the community.

Water and Wastewater Mainline Upgrade, Replacement and Rehabilitation Facility

Plan – Three proposals were received and staff used established methods to determine the most qualified teams to accomplish this project. Since two of the consultants submitting Proposals were determined to be qualified, staff will proceed with in-person interviews. The interviews will be conducted in early December. Staff will then negotiate the costs for effort and return to the Board in January for approval of a professional services agreement.

Potential Alternative Energy Considerations and WWMF .68 megawatt System – Staff is now working concurrently on several photovoltaic feasibility projects. The proposed WWMF .68 megawatt system has been shelved until we have some verifiable electrical demand data so design can be completed and the actual electrical need for power determined. Producing electricity beyond our demand would be penalized since buyback of the power by PG&E is only 33% of the wholesale cost of electricity produced above actual use, meaning the money is better off collecting interest in the bank and finally because the connection point has not been constructed. Staff did have a brief update by Villara related to current and future net metering and tariff circumstances now and for the foreseeable future. It appears the tariffs are changing but net metering will be available for the time being. Staff is also exploring another large system that would be located in a central part of McKinleyville and would supply all the power needs for the entire district excluding the WWMF. Two smaller solar projects one at the Teen Center and one for the administrative office are at varying stages. The administrative office proposal is now in the fiscal analysis stage but due to the audit and other time sensitive projects the priority has shifted but could be ready for Board review as early as January.

Recoating of Tank 1A – The interior roof section is completed and the painting process has moved to blasting, priming and painting of the interior walls. This section should progress at a faster pace because of the flatness of the surface but due to coating application difficulties the project is behind schedule and may not be completed before the beginning of the new year.

Integrated Pest Management Plan – Staff continues to meet for approximately an hour every other week. The three-member committee includes the GM, Operations Director and another staff member. Staff is progressing with this task and has completed the MCSD Reduced Toxicity Pesticide List. The list is a matrix of chemicals categorized by hazard level. Per the MCSD Pesticide Policy approved by the Board of Directors, pesticides will be eliminated where feasible. The list is a guide to be used after mechanical, cultural and biological controls have failed to produce results. MCSD IPM Control Alternatives & Cost Assumptions matrix is under development at this time so the actual fiscal impact to the MCSD ratepayers for our adherence to the Policy can be tracked.

Teen Center – The planter and turf areas are nearing completion but due to the weather, delays are unavoidable. The irrigation system piping was installed and topsoil spread prior to seeding. Staff is still waiting for the exhaust hood and fire suppression systems; the supplier has assured us that they will be in before Christmas.

Central Avenue Open Space Maintenance Zone #6 (OSMZ) – Ballots have been arriving at one or two a day since the initial rush the week after the notice was sent out. At the time of this writing we have had a 40% response with running average of 70% approval. The public hearing will be held during the Board meeting December 7th.

WWMF Improvements – Weekly construction meetings are attended by staff to discuss the three-week rolling schedule, submittals for materials, requests for information and progress to that point. Due to the seasonally high precipitation rates, work has been impacted significantly. The invoicing for October and November total <\$900,000 and should be roughly \$1,000,000 per month. This has the potential to cause the schedule of the project to run long, resulting in increased costs for construction management and inspection. The control building should have been weather tight by now but the roof is still not completed and is scheduled for completion before Christmas. Internal components in Clarifier 1 are being formed and poured at this time, once completed the forms will be stripped and the mechanical components will be set in place. Piping and conduits continue to be installed as weather permits. Offsite communications and Supervisory Control (SCADA) for the new process have been keeping staff busy for the past month and will be a major area of attention for the next few months. The ability to remotely view the systems and onsite SCADA will have a significant impact on the project and the operators control of the systems.

Meetings – The General Manager attended various meetings this month including a Mad River Flood Plain status and planning meeting with Humboldt County Public Works. GM also attended the second to last CSDA Board of Directors Meeting for this year in Sacramento.

RE: MONTHLY MONITORING REPORT

Dear Justin:

Enclosed is the Monthly Monitoring Report for October 2016 for McKinleyville Community Services District Wastewater Management Facilities WDID NO. 1B82084OHUM, operating under Order Number WQ 2011-0008-DWQ.

The normal discharge of effluent was 31 days to Discharge Points 002, 004 and 006. The required monitoring and water quality constituents that were tested and reported were in compliance in October.

The requirement for BOD is 45 mg/L monthly average, and 65% removal for the weekly average with four weekly tests in October that represent five criteria. The BOD results for October are in compliance.

The requirement for TSS is 83 mg/L, for the monthly average with four weekly tests in October which represent one criteria. The TSS results for October are in compliance.

The requirement for Nitrate as Nitrogen in the effluent is a monthly average of 10 mg/L. One test was conducted in October and was in compliance.

Total Coliform Organisms MPN/100 ml. The Monthly Median not to exceed MPN of 23 and the daily maximum not to exceed MPN of 230. The reported results for the month of September are as follows. Median was <1.8 and a Maximum of <1.8. Five samples were collected in the month of October and were in compliance.

Monthly River Monitoring was conducted in October.

WWMF Upgrade Status: Clarifier "A" and "B" were water tested and passed. The headworks and maintenance building are 50% completed. The aeration basins 1 is completed and lined. Aeration basin 2 is still under construction. The biosolids basin is lined. The rain has slowed the project down a little. Backfilling around the clarifiers is in process. Weekly meetings have been conducted with District staff, contractors, engineers and the project manager. Contractors have 521 days to complete the project. They have projected to be completed by February 2017.

Quarterly sampling was conducted in November.
